

LED | DESIGNER LIGHTING

THE PERFECT FUSION OF FORM AND FUNCTION

As an architect or designer, you create spatial experiences where form and function blend together to provide the perfect environment. For over 100 years, LSI Abolite Lighting has delivered traditional RLM shapes, colors, mounting options and light sources for indoor and outdoor applications. Today, tradition and future meet as LSI Abolite RLM fixtures are offered with LSI's innovative, high performance LED optics.

■ High brightness LEDs

- Cool, neutral and warm white color temperatures
- Up to 1055 lumens at 11 watts
- 70 CRI (Cool White) and 80 CRI (Neutral and Warm White)

■ Up to 90% energy reduction when compared to incandescent lamp sources

■ Minimum 60,000 hours to 100,000 hours expected life depending upon the ambient temperature of the installation location

■ Integrated power supply allows the fixture to be connected directly into line voltage

■ Virtually maintenance free

■ 5-year warranty

Classic form coupled with innovative LED optics – the LED Angled Reflector is ideal for highlighting interior and exterior signs, displays and architectural features.

The LED Radial Wave's timeless design and functionality merge to deliver fixtures suitable for retail merchandising, restaurants and commercial spaces.

available with symmetrical or directional optics (AD and RDW)

The LSI Abolite LED Deep Bowl serves as general ambient, task ambient or simple decorative lighting. It is a great choice when a complete cut-off luminaire is required, such as in restaurant table lighting.

With the LSI Abolite LED Standard Dome, versatility, timeless design and functionality merge to make it an excellent solution for general ambient, task ambient or simple decorative lighting.

Seeing is Believing
