

THE LEGACY CONTINUES....

In **1995** LSI defined the standard in canopy lighting with the **Scottsdale®**. Today LSI defines the future of canopy lighting once again with the **Legacy™** LED canopy lighting solution

Seeing is Believing

2 LENS CHOICES
2 SIZES
MULTIPLE MOUNTING OPTIONS

Crossover®
LED LIGHTING TECHNOLOGY

Purpose Built

Performance Driven

Stunningly Attractive

Purpose Built

Designed to replace the LSI Scottsdale

– installs quickly into existing 4" hole without extra cutting, drilling or caulking

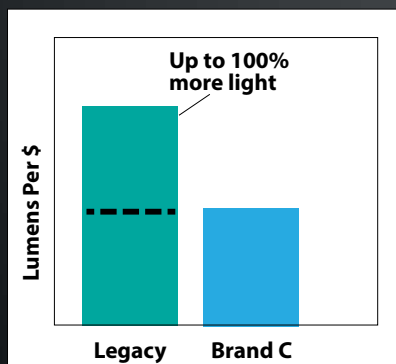

- **One-Person** – Fastest, easiest installation in the marketplace

High Performance, Low Cost – most cost-effective LED canopy fixture in the marketplace

2 sizes – Flat or Scottsdale lens

Multiple Mounting Options

Performance Driven

Highest lumen per dollar – tremendous flexibility in how you light your site

- Improved performance - choice of lumen packages (up to over 23,523 lumens)
- Better light distribution – more illumination on your dispensers
- Designed for utility and/or DLC approval and rebate participation

Stunningly Attractive – day and night!

Extremely slim optical unit – flush look against the canopy

During the day the Legacy disappears, assuring that attention goes to your marketing elements, not the canopy fixture

Full panel brilliance, properly scaled to your canopy, with no annoying gaps or glaring diode point sources
