

News Flash from LSI Industries -

the Innovator in Parking Garage Lighting Solutions

The LED XPG3 from LSI Just Got Better!

New & Improved Performance Using Less Energy

At LSI we continue to advance progressive LED technology to give you high performance, energy efficient, affordable lighting that brings value to you. With our latest upgrade to the XPG3 fixture, you get the same quality and features you do today plus –

- more light – 25% more lumen output and better uniformity
- reduced energy consumption --- 5% less than previous version; up to 40% additional energy savings depending upon the drive current
- 30% increase in efficacy

The XPG3 is the ideal solution when light output and energy savings are your primary objectives.

For those projects that are more competitively priced, select LSI's standard XPG fixture.

Two great choices to better meet your needs, giving you

- Even more Parking Garage opportunities!
- Increased overall sales!
- Greater commissions!

Either way it's a win for you.
