

LED AeroMax™ (XAMU/XASU) Area Lighting

RETROFIT NOW
Start Saving Energy
TODAY!

*Refined fixture design
and performance make LSI's
XAMU and XASU a perfect site lighting solution*

- Available in two sizes; medium and small
- Innovative optics deliver bright, uniform lighting at lower light levels with virtually no light trespass. Available in Types 3, Forward Throw and 5 reflectors with choice of Super Saver (SS) or High Output (HO) drive currents.
- One-piece housing ensures protection from rain and contaminants
- Low profile housing lines translate to very low EPAs meaning lighter gauge poles
- **Venabled** - Sophisticated controls such as dimming, bi-level switching and LSI Virticus wireless controls and information systems translate to tremendous energy savings
- Minimum 60,000 – 100,000 hours expected life
- Maintenance-free
- 5 year warranty

Designed to IES Model Lighting Ordinance Standards

SEEING IS BELIEVING

SmartTec™ - The LSI Difference

Designed and built around LSI's own Crossover LED Lighting Technology and SmartTec intelligence platforms, our LED solutions are second to none. The XAMU and XASU contain intelligent components designed, engineered and manufactured by LSI specifically to work in unison to deliver the most efficient and reliable lighting solution possible.

SmartTec ensures optimum fixture performance, energy efficiency, delivered lumens per watt, longevity and an impressive ROI. Innovative driver design ensures the highest attainable levels of energy efficiency.

Available for New Construction & Retrofit Projects

Choose from 4" and 5" Poles for a Complete AeroMax Fixture Assembly

Steel or aluminum poles are available with straight round or straight square shafts

Each pole is finished with a baked-on polyester-powder finishing giving the pole an exceptionally attractive appearance. The process electrostatically applies and thermally fuses a polyester powder to the pole. This unique protection process provides an extremely smooth and uniform finish to withstand extreme weather changes without cracking or peeling.

Steel poles are finished with LSI's patented DuraGrip® finish process and carry a five-year limited warranty. When LSI's DuraGrip Plus finish is used a seven-year warranty applies.

Ordering your LED fixtures and poles from LSI guarantees a continuous color match for the assemblies.
